

Schedule 11 Equipment List

The information below details the type of plant and equipment proposed to be used at the main waste management facilities and HWRC's once they are operational. The numbers and types are provisional and may change due to the Contractor's internal procurement arrangements and to suit service and facility developments, particularly those that are technology based. The Authority will be consulted in relation to changes in accordance with Clauses 105 (Change in Law), 107 (Authority and Contractor Changes) and 111 (Financial Adjustments).
